

Grid AI (BESS) Emergency Shutdown

Flip the Circuit Breaker for the BESS which is experiencing a problem, if you can't safely reach the Changeover Switch.

WTA

The Consumer Unit looks like this.

It is in the Technical Room of the WTA building, in the back right corner, high up on the wall.

Lift the Consumer Unit's lid, and flick the last switch on the left DOWN to switch off the power to the BESS

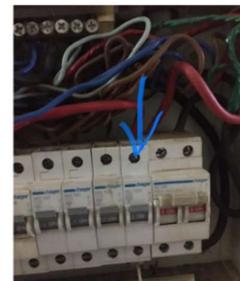

The Rock

The Rock's Consumer Unit is in the corridor: go into main entrance, then follow the corridor round to the right, and look for the Consumer Unit high up on the wall on the right.

Lift the Consumer Unit's lid, and flick the third breaker from the right DOWN to switch off the power to the BESS

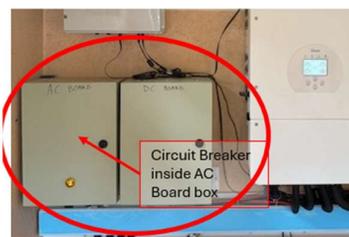

Inside the Consumer Unit, the BESS breaker is third from the right:

Mirembe

The Consumer Unit is in the AC Board box.

Open the AC Board box, and flick the BESS breaker switch DOWN to switch off the power to the BESS

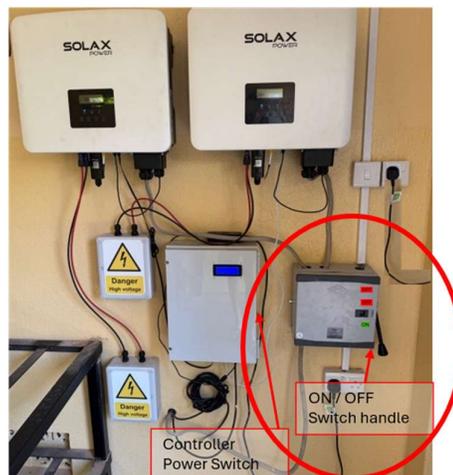

How to Switch off BESS Units using the Changeover Switch

The Circuit Breakers will switch off all power to the BESS systems. However, you may also wish to switch off each BESS unit individually for another reason.

How to switch off BESS unit - WTA

Switch WTA BESS off from inside the WTA Hut

Pull up the large handle on the ON/OFF Changeover Switch.

How to switch off BESS unit – The Rock

Switch WTA BESS off from inside the WTA Hut

Pull up the large handle on the ON/OFF Changeover Switch.

How to switch off BESS unit – Mirembe

Pull up the large handle on the ON/OFF Changeover Switch.
